Introduction to Python Programming

EXPERIENCE

KAI'S CLAN ROBOTICS – SYDNEY, NSW, AUSTRALIA 06.2019 - 08.2019

I had the responsibility of marketing our products, such as robots, to potential customers. The robots built and assembled were made available to 100 people per day over a span of 2 weeks. Educators purchased around 75 products.

ROBOCUP JUNIOR INTERNATIONAL – SYDNEY, NSW, AUSTRALIA – JUNIOR DEVELOPER(SOFTWARE) 06.2018 – 08.2019

We built robots using hardware and programmed the robots to perform tasks such as telling stories. Robots were programmed using Java and C++.
Our product was viewed by 2,760 people overall and critiqued by 5 judges.

PROJECT PORTFOLIO

Portfolio Website (https://www.enoshlartey.xyz/)

Tech Stack: Python, JavaScript, HTML, CSS, Tailwind CSS, Django

- A website serving as a collection of my completed projects.

Wordle (Open Sourced - GitHub)

Tech Stack: Django, Python, JavaScript, TailwindCSS, HTML/CSS

- This is a project completed as an improvement of my academic project.
- I converted this project to a web-based game.

Adren Gilmore Website (https://adrengilmore.com)

Tech Stack: Django, Python, JavaScript, TailwindCSS, HTML/CSS

- A website serving as a portfolio for an upcoming musician.
- Built within 14 days.

Photography Website (https://flickswithtelvo.art)

Tech Stack: Django, Python, JavaScript, TailwindCSS, HTML/CSS

- A website serving as a portfolio for a photographer.
- Built within 30 days.
- Using a PostgreSQL Database for the storage of files as well as images.
